Taking great care of the patient

Pediatrix Medical Group, the nation’s largest physician group practice of maternal-fetal, newborn and pediatric subspecialists, remains committed to caring for high-risk pregnant women and the most fragile members of our community: premature or critically-ill newborns and children. For more than 30 years, our growth has been guided by the dedication of our most valuable asset - our clinicians - and a simple principle: *Take great care of the patient.*

Our Pediatrix Cardiology physicians enjoy numerous benefits, including clinical research and continuous quality improvement opportunities, comprehensive health insurance, competitive salaries, 401 (k) with potential company match, annual CME allowance, professional liability insurance and tail coverage, and assistance with mandatory hospital credentialing and state licensing.

More than 90 pediatric cardiologists have chosen to join our team to pursue their personal and professional goals. Now it’s your turn.

To learn more, call 800.243.3839, ext. 6511 or visit www.pediatrix.com/pedcardiopportunities

Pediatrix Medical Group is an Equal Opportunity Employer.
Fixing a heart from birth through adulthood takes big teams working together. So we examined the needs of leading clinicians when designing our hybrid solutions. The result: our Infinix™-i with 5-axis positioners and low profile detectors, stays out of the way, but right where needed, providing the best possible access to patients. To lead, you must first listen.
